34. Date you completed this questionnaire:

17 Sept 1965
 Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

We were looking at the heavens
 showing the North Star & Big Dipper
 to the boys and were looking at
 the sky when the light came
 on above us. At first I thought
 it was a satellite, then it became
 clear that its movement across
 the heavens was faster than the
 satellite I have seen before & also
 the color was different. I asked
 everyone to be real quiet and
 we heard no sound until
 the light was about gone & then
 we thought we heard the
 whirring sound of a jet way in
 the distance. But there was a gasoline
 plant about one or two miles away & we
 are not sure of the origin of the jet-like
 sound.

We were in the open country -
no trees, about 15 miles
northwest of Odessa, about
2 miles northwest of North Cowden.
